TRASH BAGS

GENERAL PURPOSE TRASH BAGS

HIGH DENSITY LINERS

The high molecular weight of the high density polyethylene resin produces a **general purpose liner** that is approximately 1/3 the weight of traditional can liners. The use of fewer raw materials returns less plastic to our environment.

PART #	W	L	CAPACITY	DRY/WET LOAD (LBS)	DUTY	COLOR	QTY PER CASE	PRICE	NEW PRICE

LINEAR LOW DENSITY LINERS

The **linear low density liners** are highly *puncture and tear resistant*. This is the best choice when additional strength and stretch is required. These are an excellent choice for waste with sharp or jagged edges.

TOTAL RECYCLED CONTENT BAGS

Our **total recycled content bags** are manufactured from 100% recycled resins (30% post-consumer recycled material.) Our "TRC" bags stand up to the heavy workloads while minimizing input of resins into our waste systems.

TOTALLY DEGRADABLE BAGS

Choose our **totally degradable bags** for waste destined for the landfill. Our degradable^{††} bags slowly turn to humus. **Totally degradable bags** discourage the buildup of dangerous methane gases in landfills while preserving valuable landfill space.

BIODEGRADABLE COMPOST BAGS

Our **Ecosafe™ biodegradable compost bags** are ideal for your smallest gardening project or your largest precision waste program. Use them for everyday use knowing they degrade in a managed compost facility in approximately 90 to 120 days. **Ecosafe™ biodegradable compost[†] bags** convert into harmless Co², water and humus.
